

Champion. Head. Lead. Influence. Approach. Oversee. Manage. Supervise. Overlook. Administer. Handle. Take charge. Consider. Check. Preside. Prevail. Secure. Run. Monitor. Decide.

As a leader, you are familiar with the challenges of transforming your school into the institution it can become.

You also know that most people resist change.

Skoolee™ is a web-based school management system, designed to help administrators like you manage change. Visualize what it would be like to have real-time information that allows you to effectively supervise student learning, as well as staff and physical resources at your school.

“Perhaps the most valuable result of all education is the ability to make yourself do the thing you have to do, when it ought to be done, whether you like it or not.”

Walter Bagehot

Practical and easy to use, Skoolee™ was created specifically to meet the unique needs of multilingual schools in the Middle East and North Africa.
